Every challenge. Every day. Every patient.

We don't all have to work in the same lab to make an everlasting impact. We are biochemists, research scientists, and pathologists scattered across the globe, but working together to develop treatments that can save lives.

Evie is a brave girl who was born with a rare metabolic bone disease that affects bone growth, breathing, and mobility. We encourage you to **stop by booth A15 during FELASA 2019** to hear more about her incredible journey and help us share it with the world.

Every time someone shares Evie's story during **the FELASA congress** we'll donate €5 to **softbones.org**.

SEE YOU IN PRAGUE!
