14th felasa congress 2019

Prague, Czech Republic

June 10–13, 2019

ICLAS General Assembly - June 9–10, 2019

Why submit an abstract?

You will get a unique opportunity to present your work to 2,000 people in a great congress on laboratory animal science attended by expert scientists and professionals from around the world.

You will be able not only to show your work, but also to talk personally to people interested in your work, and to build up your network.

Preliminary Programme

The FELASA congress is a scientific and educational event. Animal welfare, ethics, legislation and training are obvious parts of the congress topics. Current knowledge on the use and welfare of animals in experiments will be detailed. Experts will discuss how to apply 3Rs advances in these areas. For example, reporting of animal research will be a special focus. And latest data and recommendations on how to work with aquatics and some other less used species will be discussed.

Preliminary Programme

Main Topics

Education and Training

sessions on animal user training | professional development

Reproducibility and Translation

experimental design | genetic quality | microbiota management

Model Management

3Rs implementation | adapting the animal facility to the latest technologies

Defining Good Care

capture | transport | health monitoring | euthanasia

Compliance and Communication

legislation | openness and transparency | strength of ethics committees

Severity Classification

workshops on severity classification for novices | advanced reporting
